

COMMUNITY MEETING

Montgomery Parks staff will hold a meeting on: **Brookside Gardens Greenhouse**

M-NCPPC Montgomery Parks invites you to discuss proposed refinements to the Master Plan for Brookside Gardens, as well as a concept plan to install a new greenhouse.

The 2005 Master Plan proposed that the propagation and maintenance area be reconfigured to consolidate office space and to provide expanded storage and growing space. The proposed update suggests better utilizing existing structures and allowing improvements to be made at a smaller scale pending funding availability.

The proposed greenhouse will be included in the first phase of the master plan recommendations for the maintenance area; it will improve growing space and increase both energy and water efficiency.
