Energized Public Spaces: Functional Master Plan for Parks in Mixed Use and Higher Density Residential Areas

An innovative and creative countywide park plan for stronger, healthier and happier communities.

M-NCPPC Montgomery Parks is seeking approval of the Montgomery Planning Board for the scope of work for a new countywide functional master plan, which will address the need for parkland in the highest populated areas of the county.

The goal is to create outdoor spaces where people of all ages and incomes can meet, play, relax, exercise and enjoy nature and more, in a range of parks and open spaces in the County’s areas of highest population.

Additional information about the project, schedule and public input is on our website at www.MontgomeryParks.org. Follow the blue QuickLink for this project.
